

Energy Mouse

Wireless Mouse to Power up Smartphone

Genius introduces its new innovative Energy Mouse, that combines a power bank function with a mouse. It's perfect for charging your smartphone anytime, anywhere.

The Energy Mouse combines a 1200dpi mouse with a 2700 mAh power bank feature, bringing you the best of both worlds. Embedded in the mouse is a Li-polymer battery for excellent charge control and four LED lights to indicate battery capacity as well as charging status.

Don't worry about the power bank using up the battery, a special battery reserve feature is dedicated just for mouse operation. The bi-directional 2.4GHz anti-interference technology ensures a reliable working distance of up to 10 meters. Enjoy responsive cursor control and effortless scrolling.

The two-in-one function saves travel storage space making Energy Mouse your mouse of choice when you're on-the-go. Choose from four stand-out colors: Metallic Blue, Metallic Red, Silver or Pink.
